

# Frozen Fluffies Pops

## What you need:

### For the Fluffies dippers

5x Cadbury Fluffies, frozen  
5 wooden popsicles  
4x 80g Cadbury Dairy Milk slabs, roughly chopped  
4x 80g Cadbury Dream slabs, roughly chopped

### Toppings suggestions

Sprinkles  
100s and 1 000s  
Popping candy  
Biscuit crumbs  
Nuts, crushed  
Or any other of your favourite Cadbury treats

## Make it

1. Unwrap Fluffies and carefully, but firmly, stick a wooden popsicle through the one end until about halfway
2. On a non-stick tray, place the Fluffies lollipops into the freezer for a minimum of 3 hours until nice and firm
3. Melt the Cadbury Dairy Milk and Cadbury Dream in separate bowls over a double boiler
4. Pour the melted chocolate into two small, but narrow glasses
5. Dip the frozen Fluffies lollipops into the melted chocolate: dip half of the frozen Fluffies in the melted Cadbury Dairy Milk chocolate and the other half in the melted Cadbury Dream chocolate
6. Place the double-dipped frozen Fluffies onto a non-stick tray and decorate with your favourite toppings (try to do this quickly before the chocolate sets)
7. Place the decorated double-dipped frozen Fluffies into the freezer for a minimum of 3 hours, until the outer chocolate layer is firm and crisp
8. Enjoy with a glass of hot or cold milk—P.S. Don't forget to double dip!

**TOP CHOCIE TIP:** Pour the leftover melted Cadbury Dairy Milk and Cadbury Dream into an empty ice tray and keep frozen until ready to use—eat within 1 month.
